Hoe Neighbourhood Plan

Our Hoe – Our Say – Our Future

The Hoe Neighbourhood Plan has been years in the making. The Hoe Neighbourhood Forum was set up by residents in 2017 to gather information, consult with local people, and develop the Plan. The Plan's vision and policies were shaped by what local residents and businesses said are priorities for the future of the Hoe.

The draft Plan must now be subject to a period of public review called the "Regulation 14 Consultation", during which all local people and statutory consultees – such as Plymouth City Council, Natural England, and Historic England – have the right to review and comment on the Plan and its policies.

We want your opinion during the consultation period of 18th November to 6th January

"We would love to know what you think and find out if you share our vision. We hope to meet you at one of our consultation events and get your feedback so we can make it truly reflective of everyone who cares about our wonderful Hoe."

Penny Tarrant - Forum Chair

Hoe Forum Members

"Residents should have an outstanding quality of life... Plymouth should be one of Europe's most vibrant waterfront cities."

Plymouth and SW Devon Joint Local Plan

We're all residents and volunteers so it would be great if you could help spread the word. If you have a window visible from the street, could you please put this flyer up with the lighthouse facing out? Thank you ♥

Our Vision

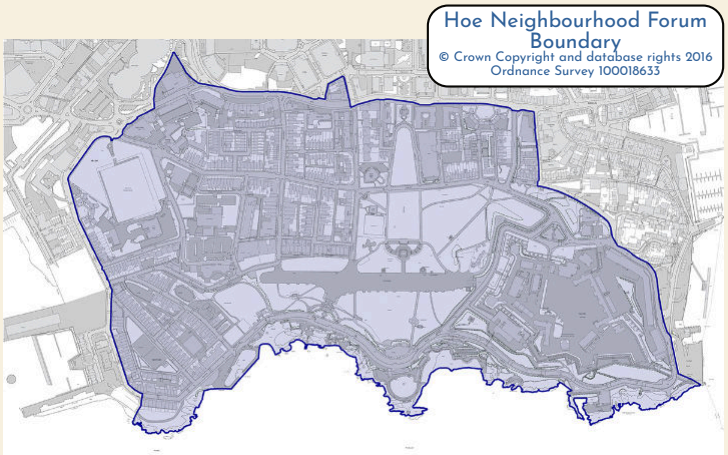

The Hoe Neighbourhood Area will be a thriving and balanced community with a strong sense of identity – a place that takes pride in, protects, and enhances all its man-made and natural assets, now and in the future.

"Neighbourhood Planning gives communities the power to develop a shared vision for their area. Neighbourhood plans can shape, direct and help deliver sustainable development by influencing local planning decisions as part of the statutory development plan."

National Planning Policy Framework 2023

The Hoe Neighbourhood Plan Policy Objectives:

- Protect our local heritage
- Improve pedestrian and transport facilities
- Protect our green and blue environment
- Specify what kinds of housing we need and where
- Ensure more infrastructure funds are used within the area
